Particular Things to be Seized

I. Information to be Disclosed by the Provider

All information about the location of the **Target Cell Phone #4** described in Attachment A for a period of thirty days, during all times of day and night. “Information about the location of the **Target Cell Phone #4**” includes all available E-911 Phase II data, GPS data, latitude-longitude data, and other precise location information, as well as all data about which “cell towers” (i.e., antenna towers covering specific geographic areas) and “sectors” (i.e., faces of the towers) received a radio signal from the cellular telephones described in Attachment A.

T-Mobile is required to disclose the Location Information to the government. In addition, T-Mobile must furnish the government all information, facilities, and technical assistance necessary to accomplish the collection of the Location Information unobtrusively and with a minimum of interference with T-Mobile’s services, including by initiating a signal to determine the location of the **Target Cell Phone #4** on T-Mobile’s network or with such other reference points as may be reasonably

available, and at such intervals and times directed by the government. The government shall compensate T-Mobile for reasonable expenses incurred in furnishing such facilities or assistance.

Law enforcement personnel (who may include, in addition to law enforcement officers and agents, attorneys for the government, attorney support staff, agency personnel assisting the government in this investigation, and outside technical experts under government control) are authorized to review the records produced by the Provider in order to locate the things particularly described in this Warrant.
